

# THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

On January 1, 2016, the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development — adopted by world leaders in September 2015 at a historic UN Summit — officially came into force. Over the next fifteen years, with these new Goals that universally apply to all, countries will dedicate to ending all forms of poverty, fighting inequalities and tackling climate change, while ensuring that no one is left behind. The SDGs, also known as the Global Goals, are built on the success of the Millennium Development Goals (MDGs) and aim to go further to end all forms of poverty. The new Goals are unique in that they call for action by all countries, poor, rich and middle-income, to promote prosperity while protecting the planet. They recognize that ending poverty must go hand-in-hand with strategies that build economic growth and address a range of social needs including education, health, social protection and job opportunities, while tackling climate change and environmental protection.

2015年9月，世界各国领导人在具有历史意义的联合国可持续发展峰会上通过了2030年可持续发展议程。该议程涵盖了17个可持续发展目标，适用于所有国家，于2016年1月1日正式生效。在未来的15年内，各国将致力于消除一切形式的贫穷、实现平等和应对气候变化，同时确保没有一个人掉队。可持续发展目标建立在千年发展目标的成就之上，旨在进一步消除一切形式的贫穷。新目标的独特之处在于呼吁所有国家，包括穷国、富国和中等收入国家，共同采取行动，促进繁荣并保护地球。通过可持续发展目标的确立，国际社会在致力于消除贫穷的同时，还将实施促进经济增长、满足教育、卫生、社会保护和就业机会等社会需求，及应对气候变化和环境保护的战略。
